The **Human Medical Device Orthopaedic Crepe Bandage** is designed to provide reliable compression and support for muscular and joint injuries. Manufactured as per **Pharmacopoeia Standards**, it is ideal for managing sprains, swellings, and varicose veins.

Crafted with **woven edges** and **superior elasticity**, this bandage delivers controlled, uniform pressure while allowing normal skin breathing and maintaining joint flexibility.

- **Superior elasticity** maintains consistent pressure, reduces swelling, and supports blood circulation
- **Porous material** ensures air circulation and can be washed and reused without losing elasticity

- **Fastened woven edges** prevent loose threads and fraying
- Provides **effective support** for orthopaedic, sports, and post-operative conditions
- Ideal as a **light compression bandage** for muscular stability
