The **Microporous Surgical Tape** is a soft, breathable, and hypoallergenic adhesive tape designed to **secure dressings, bandages, and medical devices** comfortably to the skin.

Made with a **microporous structure**, it allows air and moisture to pass through, maintaining skin integrity during extended use. Its **gentle adhesive** holds firmly yet removes easily without leaving residue or causing irritation, making it ideal for sensitive skin and post-operative care.

- **Gentle adhesion** suitable for all skin types
- **Latex-free and hypoallergenic** for safety
- **Highly breathable** for long-term comfort
- **Minimal adhesive residue** after removal
- Ideal for **general medical and first-aid applications**
