

**Product Name:**

## Combine Dressing Pad

**Product Code:** HMSD.2354

**Size Availability:**

- 10 cm × 10 cm
- 10 cm × 20 cm

The **Human Medical Device Combine Dressing Pad** is designed for high absorbency and superior wound care. It can effectively handle heavy exudate, promote healing, and keep the wound area dry. Each pad is **sterilized using gamma radiation** and manufactured in accordance with **Pharmacopeia standards** for safety and reliability.

The **non-woven outer layer** and **highly absorbent cotton filler with rayon fibers** allow fluid to diffuse evenly throughout the pad, while the **hydrophobic backing** prevents strike-through and leakage.

- **Highly absorbent cotton filler** ensures slow strike-through even with heavy exudate
- **Non-adherent surface** prevents sticking to the wound
- **Non-woven coating** minimizes trauma during dressing changes
- **Sterile and hypoallergenic materials** reduce wound irritation
- Ideal for **large or heavily bleeding wounds**

- Can be applied **directly to the wound** or used as **extra padding** for major injuries
