## IV Cannula Pen Type

Introducing Atlas IV Cannula Pen Type, engineered for superior performance and patient comfort. This high-quality medical device is meticulously crafted to meet stringent international standards, ensuring reliability and ease of use.

### Key Features

- **Color Coded Body:** Designed as per ISO standards for easy and accurate identification.
- **6% Luer Taper:** Adheres to international standards, providing a secure and consistent connection.
- **Premium Needle:** Made from Japanese stainless steel (AISI 304), our needle meets all ISO specifications for diameter and length, ensuring strength and durability.
- **Triple Point Needle:** Specially designed for painless insertion, enhancing patient comfort.
- **Advanced Catheter:** Constructed from thin-walled, radio-opaque stripped or transparent Teflon, compliant with USP Class VI standards, ensuring high visibility and safety.

- **Automated Tipping Technology:** Custom technology reduces penetration forces, making insertion smoother and less traumatic.
- **Optimum Trim Distance:** Precisely calculated to ensure pain-free penetration.

## Why Choose Our IV Cannula Pen Type?

Our IV Cannula Pen Type is designed with both healthcare professionals and patients in mind. The advanced features ensure easy handling and insertion, reducing discomfort and improving the overall patient experience.

Experience the perfect combination of advanced technology and patient-focused design with our IV Cannula Pen Type. Order now to enhance your medical practice with a product that prioritizes safety, comfort, and efficiency.
