

Product Name:

Fetoscope Aluminum

Product Code: HMSD.9024

Size Availability

- Standard Size

The **Aluminum Fetoscope** is a **lightweight and durable medical instrument** designed to listen to the **fetal heartbeat during pregnancy**. Constructed from **high-grade aluminum**, it offers excellent sound transmission while remaining easy to handle and carry, making it ideal for both hospital and field use.

Its **tubular design** efficiently transmits sound from the mother's abdomen to the listener's ear, while the **bell-shaped chestpiece** helps in focusing and amplifying the fetal heartbeat for accurate monitoring.

Features

- Lightweight aluminum construction for easy handling
- Durable and corrosion-resistant for long-term use
- Tubular design ensures clear sound transmission
- Bell-shaped chestpiece enhances sound focus
- Smooth finish and ergonomic design for user comfort

Uses

- Monitoring fetal heart rate and rhythm

- Determining fetal position
- Providing reassurance to expectant parents through audible heartbeat detection

Human Medical Device

Richhola Kifayatullah Pilibhit Bypass road
Nawabganj Bareilly Uttar Pradesh 262407.
